

# FOR SALE

## SEVERAL PAIR OF YOUNG NEXGEN VAN LOON STOCK BIRDS

I have several pair of young "Next Generation Van Loons" for sale that have been especially bred for stock, being part of a continual process of trying to improve what I call my "**NexGen Van Loons**". Each year I try to introduce a few additional proven Van Loons from various sources. This enables me to continually build a winning gene pool of Van Loons without inbreeding to excess, and as a result I breed around 20 birds for stock each year keeping only a few of these after they have moulted as I am limited for space. Many of those offered for sale are brothers, sisters and/or cousins to the few I keep. The newest introduction to the NexGens are those of the "Thei Bours" of the Netherlands via JoJo's lofts in Canada. These birds being bred down off the following Champions – "**The Raven**", a winner of 29 combine prizes in 2 years of racing and "**VooDoo**", a winner of 28 combine prizes. These being blended this year to the bloodlines of those I already have which include the "**Scrumpy**" line, via Steve Beverley's Ray Hunt birds and those of Des Sippets. The "**Senna**" and "**Verona**" from imported Campbell Strange Van Loons in the USA, birds off Grenville Evan's champions the "**Gift Cock, Blue Moon and Braveheart**" along with birds down off the Ponderosa Champions – "**Chicago, Beachboy, Surfer Girl, Louis and Suzanne**" to name but a few. These along with "**Silver Shadows**" off Keith Saggars original imports have performed exceptionally well when crossed to those listed above. (Price for those above by application)

### **Race Teams Available 2010/11 (Purchaser to pay freight)**

As I no longer race, all this years (2010) squeakers will also be available to purchase in **Race Teams of 10 for \$450 per team plus freight**. Birds obtained from this loft have won for many CCF and MNC federation fanciers including 1<sup>st</sup> prize Mid Northcoast Federation All Age National in 2008 by 39 mpm.

Birds obtained from this loft in 2007/8, have won over 25 prizes at Club and Federation level, including 1<sup>st</sup> Club, 6<sup>th</sup> Fed. Young Bird National (MNCF), 1<sup>st</sup> Club, 9<sup>th</sup> Fed. and 2<sup>nd</sup> Club, 14<sup>th</sup> Fed. All Age National (MNCF) all in 2007 – achieved by two different fanciers. Another fancier in the CCF won 4<sup>th</sup> Club, 6<sup>th</sup> Section Young Bird National on the second day when few pigeons were homed. These birds excel in this type of race and are excellent one day racers that can be raced either straight or crossed to other strains with equal success.
